Democratic Electors assembled in the roo with the Senate Chamber. The Sectorm of the Votor passed an evelope through the door to Cronin, who read it as a certificate of the vote given to Odell, Cartwright and himself. He then put it in his pocket, refusing to show it to the Republicans. Odell, Cartwright and Cronin seated themselves at a table and organized by electing Odell Chairman. Watts offered to leave, he remained at the request of the other Republicans. Watts then tendered his resignation as Elector. Odell and Cartwright severally demanded their certificates of Cronin who repeatedly refused to surrender them. After some time Cronin asked if they refused to act with him. Coell and Cartwright sald no, very emphatically, but demanded that their authority to act should be shown. Cronin then left the table, the Republicans of the other Republicans of the other Pomocrats (Klipell and Laswell) refused to surrendered his resignation as Elector. Odell and Cartwright and Coronin who repeatedly refused to surrendered his resignation as Electors having made no objection to co-operate with him, and after calling in Miller and Parker, organized his Electoral College as before reported. Secretary Chadwick claims to have simply acted under Governor Grover's orders.

NEW YORK. Dec. 8 .- The Commercial Advertiser's special says that the Demoorats claim that the irregularity in Oregon will bring the whole question of frauds in the Electoral Coilege before Congress, and that Cronin, the Democratic Elector, has a prima facie case, and that the Republicans must accept the vote or go behind it, which would give the House the right to inquire into and exclude the vote of Louisiana.

The Governor Makes a Statement. NEW YORK, Dec. 8 .- The Heraid pubishes a dispatch from Governor Grover, of Oregon, giving the grounds of his action in granting certificates to the Electors in Oregon. He says, in reference to the case of Watts, that the fact of his disqualification was well known.
A protest was entered against the issuance of a certificate to Watts. To this a reply was filed objecting to anything but a count of the votes and certificate a reply was filed objecting to anything but a count of the votes and certificate on the count, making no denial of the disqualifying facts. It was ruled in the case that the Governor had a right to determine the question. It was also held that the votes cast for an ineligible candidate can not be counted for any purpose, and the eligible candidate having the next highest number of nigible candidate can not be counted for any purpose, and the eligible candidate having the next highest number of votes was duly elected. This ruling he says was based upon standard authorities, such as Cushing and Grant, the decisions of many courts, the later uniform practice in the U. S. House of Representatives, and the great weight of English authorities. The law of Oregon providing for filling vacancies in the Electoral college recognizes a vacancy only in cases where there has been an incumbent and such incumbent has died, refused to act, neglected to atcase there was no incumbent, unless the next highest candidate should tak the position, and there was no vacancy which could be filled by the other members of the College. The next highest candidate eligible under the Constitu-tion of the United States was therefore

entitled to be duly elected. South Carolina.

THE BROOKLYN DISASTER.

SCENES AND INCIDENTS SINCE THE TERRIBLE OCCURRENCE.

National Associated Press to the Star.

BROOKLYN, Dec. 8 .- Tue disaster at the Brooklyn Theater continues to be the theme of conversation among ail classes. Firemen, policemen and others are still busy with picks and shovels, and all exhumations made are at once sent to the neighboring police stations and to the old market, the morgue being already full. Police guard the ru-ins. Nearly three hundred and lifty bodies have been recovered from the ruins.

Greatheaps of debris at either corner of what once was the stage, have not yet been removed, and pieces of wearing apparel protrude from the mass of crooked gas-pipe and piles of rubbish in

every direction.

Numbers of bodies have been identified by relatives. In all cases where identification is complete the Coroner delivers the remains to the families of the dead. The police are exhausted by their hard labor, and Gen. Jordan has accepted the offer of one hundred men of the Twelfth Ragiment of National Guards to stand guard as special police. Guards to stand guard as special police-

There is great indignation at attempts at the morgue of avariatious wretches to gain possession of bodies upon whom watches or other jewelry are found. Several such attempts have been made. In one case two men claimed to recog-In one case two men claimed to recognize a corpse as that of a relative; the body was that of a boy, and the father had already claimed it and was standing near, plunged in the deepest grief, when the two rascais, attracted by the sight of a valuable gold watch and chain, made application for a permit to remove the body. So far as known such attempts have not proved successful.

A Coroner's jury was impanied, and held a private session in the Stationhouse adjoining the ourned theater, They took no evidence, and at noon adjourned to meet at the Coroner's office

Tuesday: which there is reason to believe the dreafful loss of life in the gallery is in a large measure attributable, was the use of painted cloth for the ceiling. The canvas caught easily and burned rapidly. Of course the flames followed it idly. Of course the flames followed it to the ventilator at the top, making the dome a funnel of fire right over the heads of the people in the gallery. It seems more than probable that the smoke and fire, in the midst of which they were thus placed, destroyed the lives of many persons who might else have escaped, even by the inadequate

J. B. Hough, M. D., Professor of Chemistry and Toxicology in the Miami Medical College of Checimati, was wrongly represented in our columns yesterday as "Teacher in the Pharos; centical College of Michigan." Professor HOUGH is not now, but was formerly, a teacher in the Pharmaceutical Department of the University of Michigan.

Messrs. Martin, Hughes, Huston and Titus, who have been sojourning in Put-nam County, Onio, for the last month on a deer hunt, have returned crowned with success. They report the hunting fine, though they have met too many competitors in the Woods, so as to renewer the changes less fragues. ther the chances less frequent to bag the game. Mr. Titus, of the company, was me luckiest, he having brought down

five bucks. RUSSELL BLAIR, our mammeth los king, and PAUL WILLIAMSON, the Re-corder, can be properly denominated the Nimrods of the West. They can the Nimrods of the West. They can detect more good points in a dog and gun than any other two devotees since the days of Boone. They can give finer instructions in the art of shooting (and missing) than any school, Frank For. missing) than any school. Frank Forester not excepted, and can bag more quail on a single hunt, and shot (put shot) than would stock a game store. They are now down in R piey County, ludiana, sowing shot on Farmer Greek plantation; and if asked to show the rabbit on their return, with undoubtedly give the same answer that Hans divided the same answer that Hans divided his dog stopped pursuing the hard. Said hunter Blait to Paul; "If we don't shange our thetes soon, We'll kill be game at all."
